Major Streets in Bold Text		

The Stockade-athon race committee and the Schenectady Police make every effort to minimize traffic delays on major city streets while focusing on the safety of race participants. State Street in downtown Schenectady will close in advance of the 8:30am start and be reopened at approximately 8:45am, after all runners enter the historic Stockade District. We anticipate that by 9:00am, major roadways downtown including State Street, Erie Blvd, Front Street and lower Nott Street near Union College will be open for normal commuter traffic. At that time, runners will have entered the GE Plot residential neighborhoods, en route to Central Park as they complete the tour of city parks and historic neighborhoods. Franklin Street near City Hall will remain closed for the duration of the event.
